## Oxycontin & Alcohol: A Deadly Cocktail For Older Adults

Tuesday, March 20, 2018

1:00 PM - 3:00 PM

Cost: \$35 CEU's offered (with additional fee)

### Objectives:

Older adult opioid addiction, often complicated with alcohol, has skyrocketed; yet prolonged opioid use exacerbates chronic pain. Participants will learn about dimensional addiction treatment for individuals over 50 with chronic pain, be able to describe the generational and comorbidity aspects of Boomer

Opioid addiction, and apply practical tools in Boomer and older adult assessment and engagement in the recovery process and growth. This session informs the topic with facts and generational, evidence-based treatment approaches that include ways in which older adults engage in their own treatment, chronic pain management and recover.

### **Address:**

Westmoreland Manor  
2480 S. Grande Blvd.  
Greensburg, PA 15601
