A Community Initiative by

Discover an alternative and revolutionary approach to the understanding, treatment, and successful recovery of opioid addiction. Society has failed to adequately address the opioid epidemic. In this four-part class, participants will learn the components of a solution that can allow us to finally be successful in combatting opioid addiction.

For those in recovery, family or friends of those struggling, support or treatment providers, educators, or concerned community members.

June 4 Class 1: *It's All In Your Head* - Monarch
