Getting Crispy: Stress, Burnout, Compassion Fatigue & Secondary Trauma

February 25, 2019

This training was developed to assist all individuals who work within the helping field. The relationship between chronic stress and trauma and substance use disorders is an important aspect to consider when working with individuals in the drug and alcohol field. Studies reinforce the need for individuals be aware of the stress, burnout, compassion fatigue and secondary trauma that could impact individuals working in the field, and also identify ways to minimizing the impact on all those involved.
